New Guidance for Environmental Review Participants

Thanks to the Center for Urban and Rural Affairs and intern, April Loeding, the EQB has developed nine guidance documents designed to help stakeholders better understand their roles in environmental review. They are:

For local government RGUs:

- [Reviewing Petitions: A Procedural Guide for Local RGUs](#)
- [Preparing EAWs: A Procedural Guide for Local RGUs](#)
- [Working with Consultants: A Guide for Local Governments](#)
- [Establishing Local Government Policies and Ordinances for EAWs](#)

For citizens interested in environmental review:

- [A Citizen's Guide: An Introduction to Environmental Review](#)
- [A Citizen's Guide: The Petition Process](#)
- [A Citizen's Guide: Commenting on Environmental Review Projects](#)
- [A Citizen's Guide: Environmental Review and Local Government Decision-Making](#)

For project proposers:

- [Working with Consultants: A Guide for Project Proposers](#)

These documents go into greater detail and cover topics not addressed in the “ABC’s of the Environmental Review Process” and the “Guide to Minnesota Environmental Review Rules.” To view all the EQB’s Environmental Review guidance documents, go to the [Environmental Review web page](#).
