442	4410.4300, subpart 22			Highway Projects	4410.4300 Subp. 22. Mandatory EAW threshold would go from one to two miles, and auxiliary lanes are excluded. At a time when ecosystems along side roads are experiencing increasing negative effects from deicing chemicals, right-of-way ATV riders and exhaust it seems this is a step backwards in Environmental Review. If anything, the mandatory threshold project mileage should be reduced.
