

# Adapting to Climate Change: Innovative Strategies from around Minnesota

2019 Environmental Congress

Kristin Raab, MN Climate & Health Program Director

# SPEAKERS

Protecting Drinking Water, Alison Zelms, City of Mankato

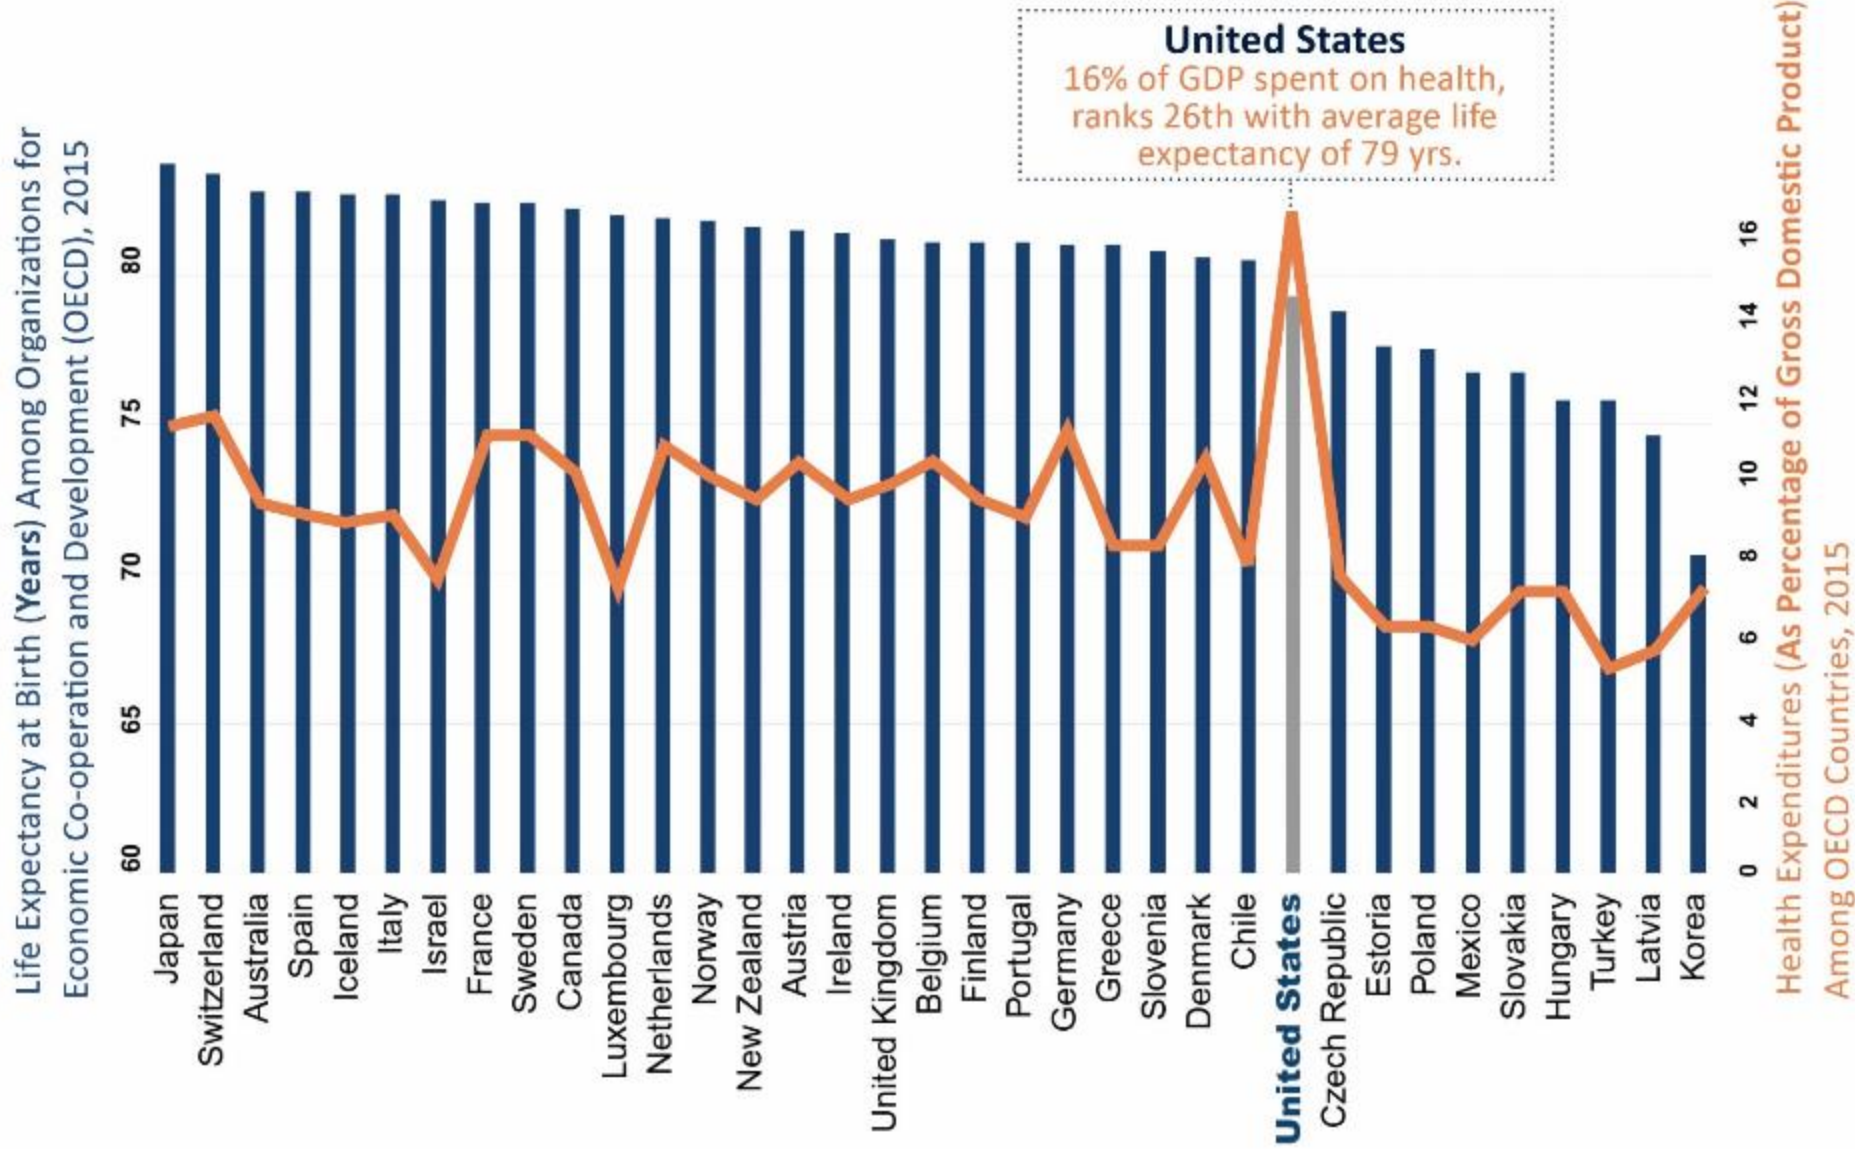

Protecting Streets & Roads, Jeffrey Meeks, MnDOT

Protecting Ecological & Culturally Important Resources, Hilarie Sorensen, 1854 Treaty Authority

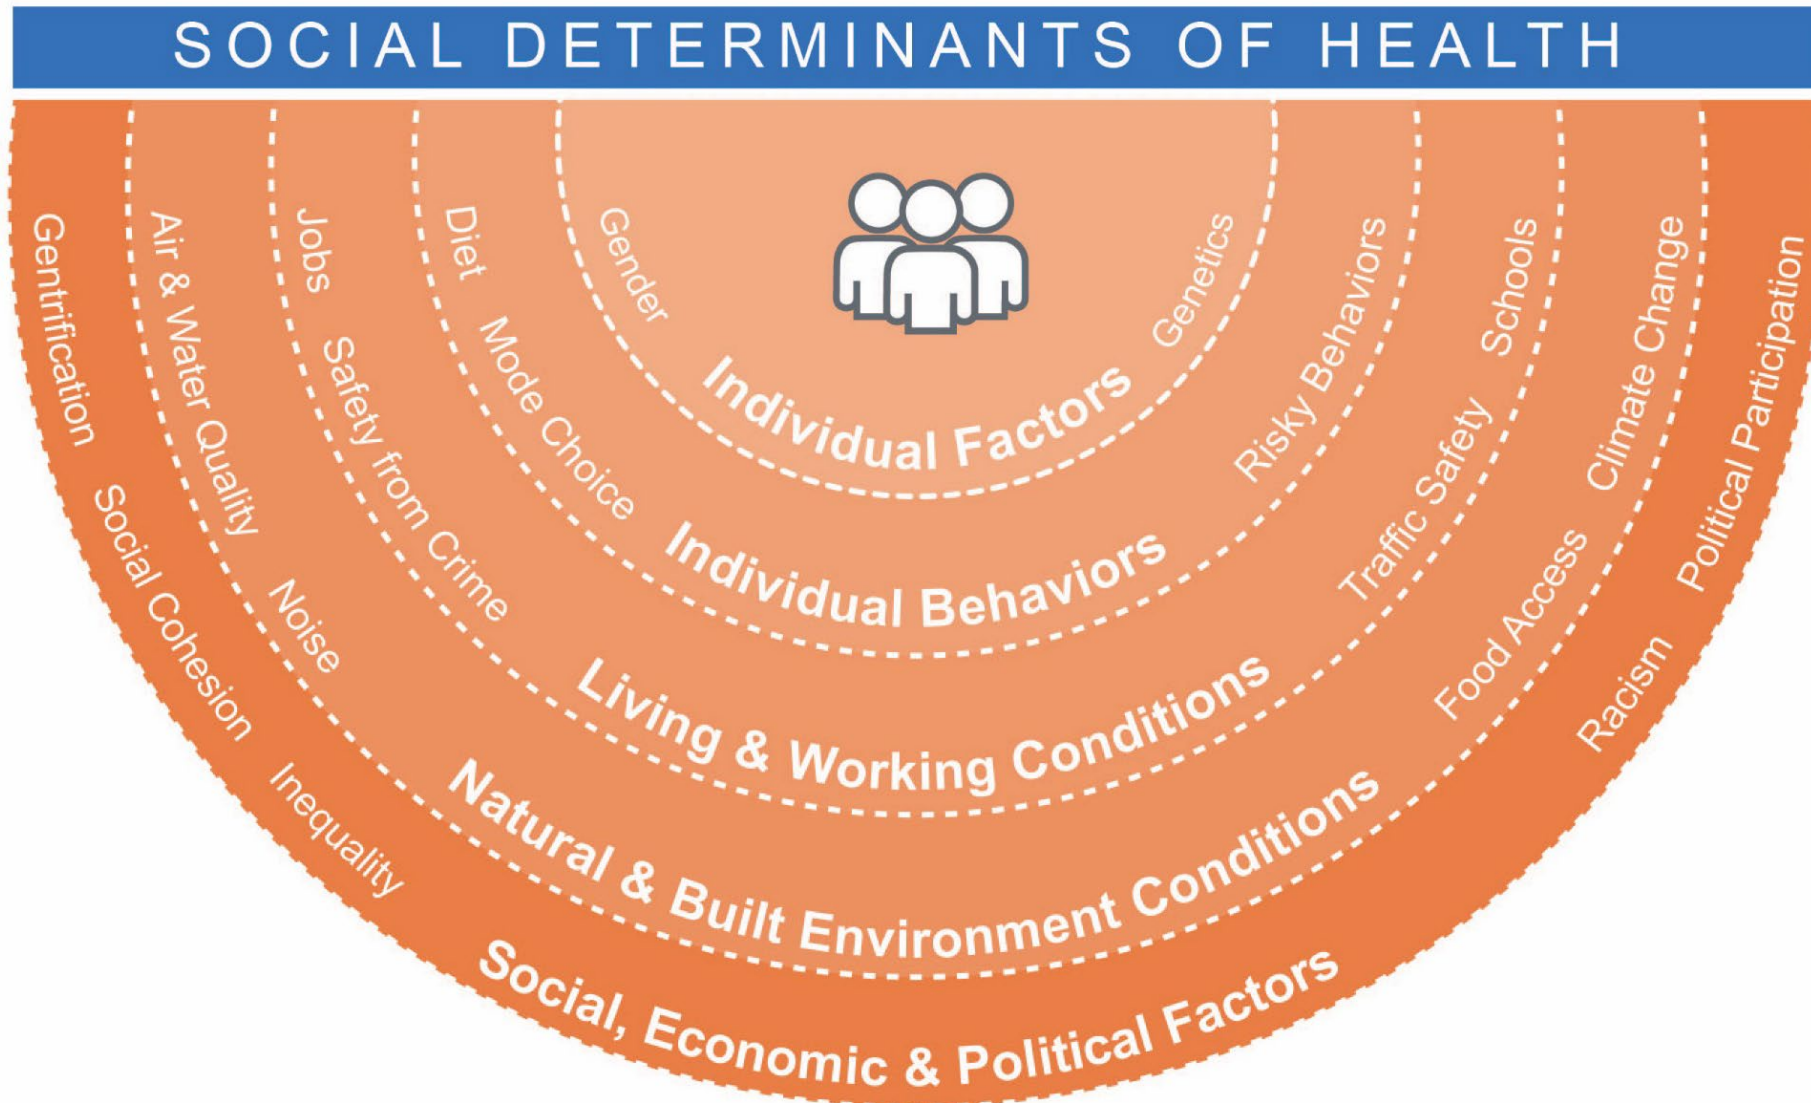

What creates health  
health?

# What creates health?

# Determinants of Health

# Minnesota Climate & Health Program

Climate change is already harming our health. With climate changes intensifying, the Minnesota Climate & Health Program focuses on improving our ability to protect public health and prevent further harms from climate change.

- **Educate** about the health impacts of climate change
- **Research** how climate change impacts public health
- **Build capacity** through tools, products, and technical assistance

# Thank you!

**Kristin Raab. Director**
