Alternative Urban Areawide Review Update Adoptions

Project Title: The West End AUAR Update

Project Description: The West End study area consists of 48.6 acres located at the southwest corner of I-394 and Trunk Highway 100 in St. Louis Park, MN, with eastern portions of the site in Golden Valley, MN. The City of St. Louis Park adopted The West End Final AUAR in March 2007. Since that time, some development within the study area has occurred. An update to the AUAR was adopted by the City of St. Louis Park in October 2013. Since the study area is not yet fully developed, another update was prepared that includes one additional scenario as outlined by the developer, which changes the amount of residential use previously proposed for the site. This AUAR Update was adopted on November 5, 2018. The final AUAR Update is available on the City's website at <https://www.stlouispark.org/government/departments-divisions/planning-zoning/planning-studies>.

The first hearing, in Room 100, Minnesota Pollution Control Agency, 520 Lafayette Road, St. Paul, MN 55155, starting at 10:00 am on **Friday March 8, 2019** and continuing until all public comments have been heard. The second hearing at Great River Regional Library, 1300 W St. Germain St., St Cloud, MN 56301, starting at 10:30am on **Tuesday March 12, 2019** and continuing until all public comments have been heard. It must support modifications by data and views submitted to the agency or presented at the hearing. The adopted rules may not be substantially different than these proposed rules unless the Environmental Quality Board follows the procedure under *Minnesota Rules*, part 1400.2110. If the proposed rules affect you in any way, the Environmental Quality Board encourages you to participate in the rulemaking process.

Adoption Procedure if No Hearing. If no hearing is required, the agency may adopt the rules after the end of the comment period. The Environmental Quality Board will submit the rules and supporting documents to the Office of Administrative Hearings for a legal review. You may ask to be notified of the date the rules are submitted to the office. If you want either to receive notice of this, to receive a copy of the adopted rules, or to register with the agency to receive notice of future rule proceedings, submit your request to the agency contact person listed above.

ROTENONE APPLICATION PROJECT PLANNED BY DNR SECTION OF FISHERIES

The DNR Section of Fisheries is planning a rotenone treatment on the lake below:

| Lake | DOW# | Township | Range | Sections(s) |
|------------|----------|----------|-------|-------------|
| Frank Lake | 76003400 | 121N | 37W | 5,6 |

The DNR Section of Fisheries is planning a rotenone treatment during the spring (April 2019). The project involves the boat application (2 boats utilized) of powdered rotenone (5% active ingredient) at approximately 1PPM (low-dose) concentration to eliminate carryover Walleye in Frank Lake which is a DNR Section of Fisheries Walleye rearing pond. All attempts will be made to remove and stock as many carryover Walleye as possible prior to the treatment. This project will take place only if winterkill of Walleye does not occur during 2018/19 winter. Fish sampling will be conducted between ice-out and project initiation to confirm/deny winterkill of Walleye. Endangered or threatened species are not present in this lake. The goal for this project is to remove primary predators in order to substantially increase Walleye fingerling production for fall 2019 to better meet statewide Walleye stocking quotas.

Environmental Review Announcements

New Monitor Submission Form Available

A new *Monitor* Submission Form is now available on our website. This form can be used to submit information for publication in *The Monitor*. The updated form will improve the quality of information collected about the projects and notices being submitted for publication and the EQB's ability to monitor the effectiveness of Minnesota's Environmental Review Program.

The updated form is available on the EQB website at: <https://www.eqb.state.mn.us/eqb-monitor>

Request for Proposals for Enterprise Environmental Review and Technical Services Master Contract

Qualified contractors with expertise in preparing environmental review documents, preparing technical analyses and/or expertise in public engagement practices may be eligible to apply to be listed on an Enterprise Environmental Review Master Contract.

Public and private projects in MN can have impacts on our air, land and water resources. For over four decades, Minnesota Environmental Policy Act (MEPA) has helped minimize damage to Minnesota's environment by requiring that certain projects go through an environmental review (ER) process before getting governmental permits or approvals. The ER process provides an opportunity for public comment and produces a document that identifies: 1) potential environmental effects of the proposed project and; 2) ways to reduce negative environmental effects.

Environmental review is conducted by a Responsible Government Unit (RGU). Under MEPA, RGUs have authority and responsibility to prepare environmental review documents (Environmental Assessment Worksheets, Environmental Impact Statements and Alternative Urban Areawide Reviews) that provide information concerning environmental effects of a proposed project to project proposers, governmental decision makers and the public and, when applicable, engage stakeholders in the process.

Who will be able to use the contract?

This Program will be available for use by state agencies and other local government entities as well as non-profit organizations eligible under the State's cooperative purchasing venture ("CPV") program. CPVs are established pursuant to Minnesota Statutes § 16C.03, subdivision 10 and includes, but is not limited to, counties, cities, school districts, higher education and non-profit organizations.

For more information on becoming a qualified CPV member, follow this link <http://www.mmd.admin.state.mn.us/cpv2.htm>, or contact the Office of State Procurement Helpline at (651)296-2600. If you are a CPV and have worked with a competent, qualified contractor in the past that you think should be considered, please forward this information and suggest they submit an application.

What services will be offered?

The Minnesota Department of Administration is introducing the Enterprise Environmental Review and Technical Services Master Contract Program (the "Program") to support state agencies and governmental units with the preparation of environmental review and decision documents, and analyses in technical specialties. Once the ER Master Contract process is complete, contractors will remain on the list for two years with the possibility of an additional three year extension, depending utilization. Contractors who apply will be able to select the services they want to offer (i.e. developing complete environmental review documents and/or developing specific types of stand-alone studies like traffic studies, wildlife studies, assessments of archeological and historic resources, etc. and/or assisting with implementation of best practices for communication and public engagement).

Applicants may select one or more of the following Sub-categories included in the RFP:

1. Environmental Review

 - o EIS
 - o AUAR
2. Public Engagement

Dear Commenter,

You are receiving this letter (attached) because you commented on the Environmental Quality Board's (EQB's) Mandatory Category Rulemaking (Revisor's ID Number RD-04157). Thank you for participating in the rulemaking process. The comment period closed on February 4, 2019 and we received 190 comments on the proposed rules.

The purpose of this letter is to provide you with information about next steps in the rulemaking process to enable your ongoing participation in the rulemaking. Please be advised, this letter is not a response to your comments. You will receive a response to your comment from EQB staff as required by the rulemaking process.

The hearing date has been moved from March 8/12th to **May 31st, 2019 at 1:30pm**, to provide the EQB an opportunity to review the comments received and consider revisions. Due to the turnover of Board members coinciding with the administration transition, EQB staff needs

additional time to present the rule, the body of comments and responses, and any recommended revisions to the EQB prior to the hearing.

Based on comments received during the public comment period, EQB staff will present and recommend revisions to the proposed rule language for the Board to consider at the May 15, 2019 Board meeting. Please be advised, the scope of the rulemaking will not expand, but proposed rule changes may be removed or revised based on feedback received during the comment period. All EQB meetings are open to the public. Agenda and proposed revisions to the rule will be posted 10 days prior to the EQB meeting.

Next Steps:

- 1) **May 15, 2019 EQB Meeting:** EQB staff will present an overview of comments, and recommended changes to the proposed rules. The EQB will consider recommendations and direct staff accordingly. The Board meeting packet will be available by May 3, 2019 on the EQB website: <https://www.eqb.state.mn.us/>

- 2) **May 31, 2019 1:30pm:** Public rulemaking hearing at MPCA, St Paul, Room 100. The hearing (via a two-way-video-conference connection—anyone wishing to give testimony to the Judge can do so via the two-way-video-conference connection) will also be available at:
 - a. Brainerd MPCA Office, [7678 College Road, Suite 105, Baxter, MN 56425](#)
 - b. Detroit Lakes MPCA Office, [714 Lake Ave., Suite 220, Detroit Lakes, MN 56501](#)
