

Tribal notification for environmental review

Best practices for Responsible Governmental Units

Instructions

This document is intended to provide contact information for the distribution of Environmental Review Program-related documents and facilitate improved communication between Minnesota Tribes and state and local government agencies responsible for preparing these documents (Responsible Governmental Unit or RGU). Environmental Review Program-related documents include Environmental Assessment Worksheets, Environmental Impact Statements, and Alternative Urban Areawide Reviews as well as all associated records of decision. At the same time the project notification is submitted to the Environmental Quality Board for publication in the *EQB Monitor*, RGUs should determine if the project is located in a county of interest (Column A) and email copies of these documents to the Tribal Nation(s) (Column B), environmental review contact(s) (Column C) and other relevant contact(s) (Column D).

Please contact [Kayla Walsh](#), Environmental Review Program Coordinator, with suggested changes.

Tribal contact list
